

Master, Graduate and Postdoctoral Positions

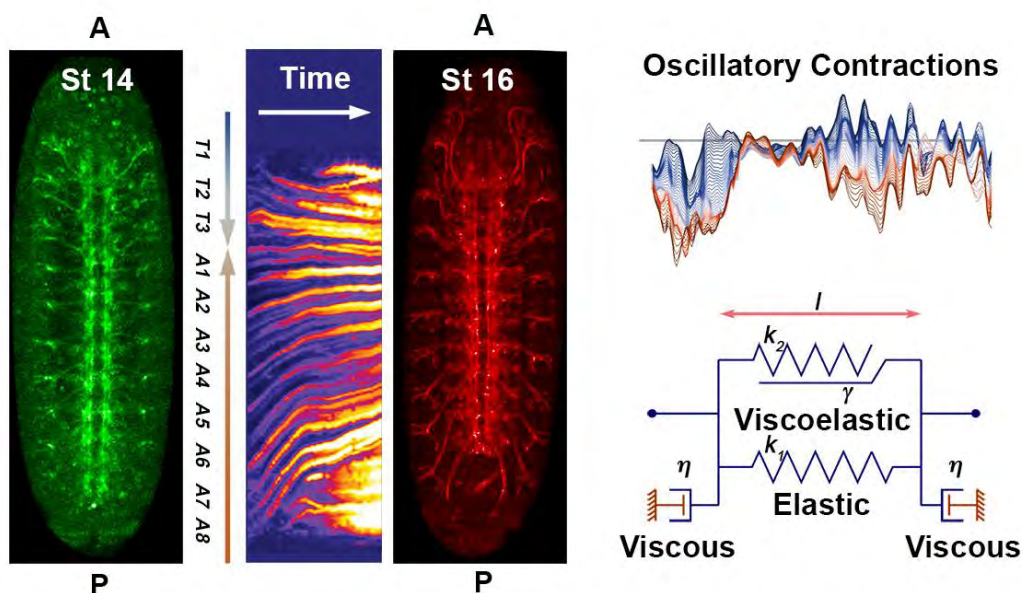

In the near future our lab will relocate to the Instituto Cajal (CSIC) in new settings at the Universidad de Alcala (CI2A), at the outskirts of Madrid.

Funds recently secured from the Spanish Research Agency let us supporting one or two graduate students at least for the next 3 years.

We are also looking for applications by recent PhDs willing to apply to national calls under the program Juan de la Cierva (Deadline January 2025).

Master students aiming to join the lab will always be welcomed-

The projects to develop will follow our recent studies on nervous system morphogenesis in *Drosophila* (Cells Dev. 2024; 180:203973; Nat Commun. 2023; 14(1):8186; Nat Commun. 2023; 14(1):675; Dev Cell. 2022; 57(7):867-882.e5.

Looking for enthusiastic and creative individuals with background in Development, *Drosophila* Genetics, Cell Biology and Microscopy, or Image analysis and Modelling. A good academic record will be important but not crucial.

Please forward any enquiries and references contacts to:
