Research Fellow positions in Glial Ageing and Neurodegeneration

We are excited to be recruiting our team of 3 post-doctoral research fellows to study the mechanisms underlying ageing-dependent glial cell dysfunction and its effects on neurodegeneration! This is a three-year Medical Research Council-funded cross-disciplinary, multi-partner project with one post-doctoral fellow at each site: Edinburgh Napier, University of Glasgow, and UCL. If you are interested in glial cell biology/neurodegeneration, functional genomics and bioinformatics please get in touch or apply below:

Astrocyte ageing & Bioinformatics: Fiona Kerr, ENU (f.kerr@napier.ac.uk): Apply here: Closing Date:

https://jobs.napier.ac.uk/mthrprod_webrecruitment/wrd/run/etrec179gf.open?WVID=150547JMmr&LANG=USA Tuesday 24th June 2025

Microglial Ageing & Bioinformatics: Dervis Salih, UCL (dervis.salih@ucl.ac.uk): Apply here:

<https://www.ucl.ac.uk/work-at-ucl/search-ucl-jobs/details?jobId=35013&jobTitle=Research+Fellow> Closing Date: Thursday 26th June 2025

Drosophila models of neurodegeneration: Nathan Woodling, University of Glasgow

(nathan.woodling@glasgow.ac.uk): Apply here: <https://www.jobs.gla.ac.uk/job/research-associate-49?source=gla.ac.uk> Closing Date: Wednesday 25th June 2025
